

Better Bridges Special Section

This special section appears in the February, May, August and November issues of *Better Roads* magazine.

Better Roads "Bridge Inventory" reports over the past several years have shown that as many as 24% of U.S. bridges are classified as structurally or functionally deficient. In 2007, an estimated \$15 billion will be spent on bridge and tunnel construction and maintenance.

For *Better Roads* subscribers who are involved in bridge building and maintenance, the **Better Bridges** section provides a continuous source of information on bridge projects, new products and services, methods and solutions.

For marketers of bridge-related products and services, the quarterly **Better Bridges** section offers an opportunity to advertise in a feature that is highly read, referenced and saved among bridge builders, consultants, and government agency-owners.

(over for 2007 Bridge Inventory)
